# SVEZA<sup>®</sup> UV

**SVEZA UV finished plywood** – is a special high quality birch plywood with a clear UV topcoat, features unique decorative characteristics of real wood and keeps it off scratches and chips. SVEZA UV is ready for cutting and milling pre-finished panel. It saves time, labor, equipment costs and waste accrue in the furniture and cabinet components production process.

SVEZA plywood with UV coating gives a time savings on a surfacing process, there is no need to make preparation work. SVEZA UV finished plywood brings out a natural texture of real birch veneers, gives a variety of colors with a range of coverages.

SVEZA UV finished plywood is under strict control for formaldehyde emission according to the DIN EN ISO 12460-3 method and fully complies with CARB ATCM и EPA TSCA VI.

Applications: drawer sides, cabinet components and interiors.
